- Backend development
- Mobile App Development
- Database Management
- Cloud Computing
- Network Administration
- Game Development

LANGUAGE

- English
- Amharic

PROFILE

I am a recent Computer Science graduate with a strong foundation in software development and a passion for creating user-friendly applications. As a certified web developer, I have honed my skills in front-end and back-end technologies, including HTML,CSS, JavaScript, and frameworks like React and Node.js. My education has equipped me with the ability to design and implement responsive web applications that enhance user experience.

PROJECTS

chat App

- App includes
- A clean, modern UI with message bubbles
- Smooth animations for new messages
- Message sending/receiving animations
- Loading indicators
- Support for both light and dark mode
- Responsive design for all screen size

App includes A clean, modern UI with message bubbles Smooth animations for new messages Message sending/receiving animations Loading indicators Support for both light and dark mode Responsive design for all screen size

FitLife gym

The FitLife Gym website is an engaging platform aimed at attracting new members and providing existing members with vital information. Its user-friendly design, coupled with interactive features, enhances the overall experience, making it easy for users to navigate and find relevant content.

jowlery shoping website

The jewelry shop website is a beautifully crafted platform designed to attract customers and provide them with a luxurious shopping experience. Its user-friendly features, elegant design, and comprehensive product information make it easy for customers to explore and purchase exquisite jewelry pieces.
